ALAN D. WAPNER, PRESIDENT
ONTARIO INTERNATIONAL AIRPORT AUTHORITY
SUBJECT: ONTARIO INTERNATIONAL AIRPORT AUTHORITY COMMISSION APPROVAL OF STIPENDS AS REQUIRED BY AUTHORITY BYLAWS

RELEVANT STRATEGIC OBJECTIVE: Development of Airport-Related Businesses.

RECOMMENDED ACTION(S): That the Ontario International Airport Authority Commission approve additional stipends per Article IV, Section 6 of the Authority’s Bylaws.

BACKGROUND: Article IV, Section 6 of the Authority’s Bylaws states as follows:

“No salary: Reimbursement for Expenses: Stipends. The members of the Commission shall receive no salary but shall be reimbursed for necessary expenses (including mileage in accordance with standard IRS mileage reimbursement rates) incurred in the performance of their duties. Additionally, commissioners will receive a stipend in the amount of one hundred fifty dollars ($150.00) for attendance at each Commission meeting, standing committee meeting, ad hoc committee meeting, and any Authority-related business function. A maximum of six (6) stipends are permitted per month. An additional two (2) stipends are permitted with prior approval of the President. More than eight (8) stipends per month will require approval by the full Commission.”

During the month of January 2018, OIAA President Wapner attended seven (7) additional Authority-related business functions and Commissioner Hagman attended twelve (12) additional Authority-related business functions. Full Commission approval is needed to approve payment of stipends.

CEQA COMPLIANCE: Exclusion from the definition of “project”: The creation of government funding mechanisms or other government fiscal activities which do not involve any commitment to any specific project which may result in a potentially significant physical impact on the environment. (CEQA Guidelines §15378(b)(4).)

FISCAL IMPACT AND SOURCE OF FUNDS: OIAA operating revenue.

PRIOR COMMISSION ACTION: On December 8, 2016, the OIAA Commission adopted Resolution No. 2016-14 approving and adopting the OIAA Bylaws.

STAFF MEMBER PRESENTING: Claudia Y. Isbell, Clerk of the Board
The Agenda Report references the terms and conditions of the recommended actions and request for approval. Any document(s) referred to herein and that are not attached or posted online may be reviewed prior to or following scheduled Commission meetings in the Office of the Clerk of the Commission. Office hours are 8:30 a.m. to 5:00 p.m., Monday through Friday.

This Agenda Report has been reviewed by OIAA General Counsel.
SUBJECT: APPROVAL TO AWARD CONTRACTS FOR A 3 YEAR PERIOD BETWEEN THE FOLLOWING FIRMS; BURNS & MCDONNELL, JACOBS, MEAD & HUNT, AND TY LIN INTERNATIONAL, FOR ON-CALL ENGINEERING, ARCHITECTURE, AND SUPPORT SERVICES AT THE ONTARIO INTERNATIONAL AIRPORT.

RELEVANT STRATEGIC OBJECTIVE: Provide Customer-Friendly Facilities and Services.

RECOMMENDED ACTION(S): That the Ontario International Airport Authority authorize the Chief Executive Officer to execute contracts with Burns & McDonnell, Jacobs, Mead & Hunt and TY Lin International for as-needed engineering, architecture and support services at the airport, for an allocation of $500,000 per contract per year. The contract allocation is not an authorization for the entire contract amount as the contract is for “on-call” engineering, architectural and support services.

FISCAL IMPACT AND SOURCE OF FUNDS: If approved, Burns & McDonnell, Jacobs, Mead & Hunt, and TY Lin International would be retained on a list of on-call with individual not-to-exceed amounts of $500,000 per contract per year for three (3) years. The total cost allocation is $6,000,000 for all four (4) contracts for the three (3) year period for the Ontario International Airport Authority. The contract allocations are not contract authorizations as the contracts are for on-call engineering, architectural and support services. Individual task orders will be authorized by the Ontario International Airport Authority up to, however, the not-to-exceed amount of $500,000 for each contract.

BACKGROUND: The OIAA was formed in August 2012, under a Joint Powers Agreement (JPA) between the City of Ontario and the County of San Bernardino, to provide overall direction for the management, operations, development, and marketing of Ontario International Airport (ONT). As part of the preparation for transfer of ownership, the OIAA identified a need for engineering support services during this transition period. After transfer of ownership, the OIAA identified the critical need for immediate engineering support services for ongoing projects as LAWA did not have any engineering staff located at ONT to manage tenant improvement or capital improvement projects, and would have no engineering staff that would be transferred as part of the Staff Augmentation Agreement.

STAFF MEMBER PRESENTING: Bruce Atlas, Chief Operating Officer

Item No. 05
PROCUREMENT: OIAA staff has determined that out-sourcing most of its engineering, architectural, and support services needs is a cost-effective alternative to hiring a full complement of OIAA staff to carry out these functions, particularly in light of the variable nature of the workload required for these tasks.

OIAA selection panel has evaluated 12 proposals under the qualifications-based solicitation process and has selected four (4) firms, Burns & McDonnell, Jacobs, Mead & Hunt, and TY Lin International, for NON-AIP projects, to provide engineering, architecture and support services for a three (3) year term, on an on-call, as-needed basis.

CEQA COMPLIANCE: The proposed staffing services decision is not a "project" under CEQA and does not require environmental review. To the extent the staffing services decision could be deemed a "project" for purposes of CEQA, it would be Categorically Exempt (Class 1) from the provisions of CEQA pursuant to (1) CEQA Guidelines section 15309 for project inspection services, (2) CEQA Guidelines section 15301 for the operations, repair, maintenance, permitting, or minor alteration of existing structures or facilities involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination, and (3) CEQA Guidelines section 15303 for new construction, installation or conversion of a limited number of small structures, facilities or equipment.

SUBJECT: AMENDMENT TO COOPERATIVE AGREEMENT BETWEEN THE ONTARIO INTERNATIONAL AIRPORT AUTHORITY AND WGJ ENTERPRISES INC. DBA PCI PARTNERSHIP FOR PAINTING OF TAXIWAYS AND RUNWAYS, PARKING LOTS, STREETS, AND ROADWAYS AND AUTHORIZE THE CHIEF EXECUTIVE OFFICER TO EXTEND EXISTING THREE-YEAR COOPERATIVE AGREEMENT FOR A FINAL YEAR

RELEVANT STRATEGIC OBJECTIVE: Maintain a Safe, Secure, and Efficient Operational Environment.

RECOMMENDED ACTION(S): That the Ontario International Airport Authority (OIAA) approve an amendment to an existing three-year cooperative agreement between the OIAA and WGJ Enterprises Inc. dba PCI Partnership (PCI) for painting taxiways, runways, parking lots, streets, roadways by increasing the current contract amount in year-two from $100,000 to $250,000, and authorize the Chief Executive Officer to extend the agreement for a third and final year for another $250,000, for a total amount not-to-exceed amount of $500,000 for the remainder of the contract term.

FISCAL IMPACT AND SOURCE OF FUNDS: Funds for this recommendation are included in the current OIAA budget appropriations and operating revenue projections.

BACKGROUND: On November 1, 2016, the Ontario International Airport (ONT) was transferred from Los Angeles World Airports (LAWA) to the Ontario International Airport Authority (OIAA). Prior to the transfer, LAW A, through the competitive bid process, awarded a three-year contract (Master Contract #4600006136) to PCI for painting at ONT, which began on March 30, 2016. Full Assignment and Novation Agreements were provided to the OIAA for existing contracts specific to ONT; however, PCI’s painting contract was excluded. Nevertheless, on March 30, 2017, PCI agreed to assign the cooperative agreement to OIAA so that work could continue at ONT in year two of the Master Contract. The OIAA’s procurement policy allows cooperative purchasing with another agency’s competitive purchasing process.

When the OIAA extended the contract for a second year it did so for a not-to-exceed amount of $100,000, and added airfield paint markings, as well as striping to streets, roadways and parking lots, to PCI’s scope of work. The airfield painting was done to correct inconsistencies documented during an FAA annual inspection. Highly visible airfield markings are imperative to achieve the high-level safety standards

STAFF MEMBER PRESENTING: Jeff Reynolds, Chief Financial Officer
established for airport operations to safely guide pilots during take-off, landing, and ground movement. Crisp markings on taxiway and runway surfaces reduce the number of incidents and excursions which are a top priority in the aviation industry. As a result, OIAA staff recommends, on an as-needed basis, that the existing contract amount in year-two be increased to $250,000 and the contract be extended for a third- and final year for another $250,000, for a total not-to-exceed amount of $500,000. If approved, the contract will then expire on March 3, 2019.

**FISCAL IMPACT AND SOURCE OF FUNDS:** OIAA operating revenue.

**CEQA COMPLIANCE:** The proposed agreement is Categorically Exempt (Class 1) from the provisions of the California Environmental Quality Act (CEQA) pursuant to Guidelines Section 15301, because it provides for the exemption from environmental review relating to the operations, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing structures or facilities involving negligible or no expansion of use beyond that existing at the time of the lead agency’s determination.

SUBJECT: A RESOLUTION ADOPTING THE ONTARIO INTERNATIONAL AIRPORT AUTHORITY LOGO

RELEVANT STRATEGIC OBJECTIVE: Provide Customer-Friendly Facilities and Services.

RECOMMENDED ACTION(S): That the Ontario International Airport Authority adopt a resolution approving the use of the full Ontario International Airport (ONT) logo as the official logo for the Authority and associated colors to represent and identify the Ontario International Airport Authority.

FISCAL IMPACT SUMMARY: No Fiscal Impact

BACKGROUND: On August 22, 2017 the OIAA adopted Resolution No. 2017-09, approving the use of four versions of the ONT logo. The new ONT logo is now becoming more visible online and throughout the airport in new signage, and all advertising features the new ONT logo.

The Authority logo does not resemble the ONT logo and provides an inconsistent brand message for the airport. The Authority will always be the Ontario International Airport Authority but would utilize the ONT logo to further drive brand consistency across all platforms. Staff recommends that the OIAA adopt the ONT Horizontal Logo as the official logo for the Authority.

SCOPE OF WORK: N/A

CEQA COMPLIANCE AND LAND USE APPROVALS: Exclusion from the definition of “project”: The creation of government funding mechanisms or other government fiscal activities which do not involve any commitment to any specific project which may result in a potentially significant physical impact on the environment. RESOLUTION NO. _______

A RESOLUTION OF THE ONTARIO INTERNATIONAL AIRPORT AUTHORITY ADOPTING THE ONTARIO INTERNATIONAL AIRPORT AUTHORITY LOGO

WHEREAS, the Ontario International Airport Authority (the “OIAA” or “Authority”) was formed through the Joint Exercise of Powers Agreement (“JPA”) by and between the City of Ontario and the County of San Bernardino pursuant to the Joint Exercise of Powers Act of the State of California, for the purpose of operating, maintaining, managing, developing, and marketing the Ontario International Airport (the “Airport”); and

WHEREAS, On August 22, 2017 the Ontario International Airport Authority adopted Resolution No. 2017-09, approving the use of four versions of the Ontario International Airport (ONT) logo; and

WHEREAS, logos are meant to represent an organization’s brand or corporate identity and the image used should be consistent across all platforms; and

WHEREAS, the Ontario International Airport Authority logo does not resemble the ONT logo; and

WHEREAS, the Ontario International Airport Authority desires to provide recognizable and consistent branding to represent and identify with the Ontario International Airport (ONT).

NOW THEREFORE, BE IT RESOLVED, by the Ontario International Airport Authority Commission as follows:

SECTION 1: The ‘Horizontal logo’ described and identified pursuant to (Exhibit 1) is designated as the official logo. All use of the Authority logo shall be pursuant to conduct of Authority related business. The colors of the logo include Grey (Pantone P 176-3 C), White, Blue (Pantone P 115-6 C), and Dark Blue (Pantone 661 C).

SECTION 2: This Resolution shall take effect immediately upon its adoption.

HORIZONTAL LOGO

Uses:

- The horizontal logo is an alternate logo to the square logo, both logos share the same airplane icon, color palette and fonts.
- The horizontal logo provides for greater flexibility for larger scale placements such as signage, advertising, as well as allows animation (the plane can start in the “O” and end in the final circle) for video and digital advertising uses.

Research findings:

- 31% selected this option
  - Focus group comments:
    - “I surveyed my employees … the winner, capturing 70% of the vote, was the logo on the lower left that has Ontario with the swirly line going through it.”
    - “I like the bottom-left logo because it’s a good combination of letting me know the city but also the airport code in one visual.”

SUBJECT: AUTHORIZE THE CHIEF EXECUTIVE OFFICER TO NEGOTIATE AND EXECUTE A LEASE AND LICENSE AGREEMENT BETWEEN ONTARIO INTERNATIONAL AIRPORT AUTHORITY AND ONTARIO INTERNATIONAL AIRPORT TERMINAL & EQUIPMENT COMPANY LLC (ONT-TEC)

RELEVANT STRATEGIC OBJECTIVE: To Reduce Airline Costs.
To Increase Efficiency in the Management, Operations and Maintenance of ONT.

RECOMMENDED ACTION(S): That the Ontario International Airport Authority (OIAA) authorize the CEO to negotiate and execute a Lease and License Agreement between OIAA and Ontario International Airport Terminal & Equipment Company LLC (ONT-TEC), for the lease of terminal space, and the maintenance and operation of terminal and other landside equipment and facilities at Ontario International Airport (ONT) for ten (10) years with the option to extend for one additional period of five (5) years. The new Agreement replaces and expands on a similar agreement assumed by OIAA in connection with the transfer of ONT to local control on November 1, 2016.

FISCAL IMPACT AND SOURCE OF FUNDS: Approval of this recommendation allows the OIAA to continue to authorize ONT-TEC to assume responsibilities and costs related to operation and maintenance of passenger terminal and other landside facilities. ONT-TEC can provide these services at levels satisfactory to the ONT passenger air carriers and OIAA at significant cost savings to the air carriers in furtherance of OIAA’s commitment to lower costs and create efficiencies. The Lease generates approximately $106,000 per year for the lease of 914 square feet of office space in Terminal 4. The License Agreement enables a reduction of approximately $11.4 million in the ONT Operating Budget and a corresponding reduction in revenue to OIAA by virtue of the residual rate-setting method defined in the Operating Use and Terminal Lease Agreement.

BACKGROUND: ONT-TEC is a consortium representing passenger air carriers at ONT formed in 2013 to assume responsibilities for custodial services in the passenger terminals, and maintenance of inbound/outbound baggage conveyor systems, checked-baggage inspection systems, and passenger loading bridges. After consultation with the air carriers, OIAA staff determined it was in the financial and operational interests of the parties to expand ONT-TEC’s scope for additional landside maintenance services including but not limited to landscaping, electrical, plumbing, carpentry, elevators, escalators and air conditioning. The additional scope allowed OIAA to avoid replacing employees of Los Angeles World Airports that were performing the duties under terms of the Staff Augmentation Agreement between OIAA and LAWA.

STAFF MEMBER PRESENTING: Bruce Atlas, Chief Operating Officer
SCOPE OF WORK: ONT-TEC and its contractors provide the necessary support staff and services to perform the above-mentioned airport land side operational and maintenance services on a seven-day-per-week, 24-hour-per-day basis.

CEQA COMPLIANCE AND LAND USE APPROVALS: The proposed management agreement is not a “project” within the meaning of Section 15378 of the CEQA Guidelines because there is no potential for ONT-TEC’s work to result in a direct or indirect physical change in the environment. As a result, the activity is not subject to CEQA.

STAFFING IMPACT (# OF POSITIONS): N/A.

IMPACT ON OPERATIONS: None. The expanded scope of services set forth in the new Agreement have already been assumed by ONT-TEC. OIAA staff will monitor ONT-TEC and its contractor’s performance on an on-going basis to ensure satisfactory service levels are achieved.

SCHEDULE: Implementation of the expanded scope of services was completed on January 22, 2018, under terms and conditions of the current Lease and License Agreement assumed by the OIAA on November 1, 2016. That agreement is scheduled to expire in June 2018, necessitating OIAA and ONT-TEC entering into a new Agreement.

ONTARIO INTERNATIONAL AIRPORT AUTHORITY
Agenda Report
February 27, 2018

SUBJECT: AUTHORIZE THE CHIEF EXECUTIVE OFFICER TO NEGOTIATE AND EXECUTE AN AMENDMENT TO THE PRODIGIQ CONTRACT TO ADD SOFTWARE TRAINING AND ONGOING TECHNICAL SUPPORT FOR A NEW BAGGAGE INFORMATION DISPLAY SYSTEM (BIDS), GATE INFORMATION DISPLAY SYSTEM (GIDS) AND COMMON USE TERMINAL EQUIPMENT (CUTE) PILOT SYSTEM AND TO INCREASE THE FY 17/2018 OIAA BUDGETED AMOUNT FOR PRODIGIQ FROM $350,000 TO $550,000.

RELEVANT STRATEGIC OBJECTIVE: Provide Customer-Friendly Facilities and Services.

RECOMMENDED ACTION(S): That the Ontario International Airport Authority authorize the Chief Executive Officer to amend the OIAA’s existing Professional Services Agreement with Prodigiq to allow for the purchase and license of Baggage Information Display Systems (BIDS) and Gate Information Display Systems (GIDS); and authorize necessary expenditure for the implementation of the pilot of Common Use Terminal Equipment (CUTE) in terminal two at Ontario International Airport (ONT) to increase capacity for additional passenger airline operations and improve the overall customer service.

BACKGROUND: Prior to the transfer of the airport on November 1, 2016, all IT systems used at ONT for daily operations were legacy technologies utilized by LAWA. Immediately following the transfer, all LAWA IT systems used at ONT ceased to be operational. This resulted in an immediate need for aggressive deployment of a number of IT systems, including public safety, radio, physical access, fuel/fleet tracking, monitoring, security, phone, network, productivity suite, firewall and airport operations software.

In September 2016, OIAA entered into an agreement with Prodigiq for airport operation solutions needed for daily operations at ONT. Prodigiq provides a scalable software suite of integrated web-based tools giving users quick, efficient access to work orders, leases, flight information display systems (FIDS), and airfield inspections. Since the Prodigiq systems are cloud-based, Prodigiq is able to bring them online very rapidly for real-time interfacing. The contract has been amended twice previously to meet the OIAA’s changing post-transfer needs. In addition to maintaining the currently-deployed modules, amending the contract again to add BIDS and GIDS will further seamlessly integrate with the existing FIDS to create a positive customer experience and address continuing operational requirements. Prodigiq also will help OIAA validate a CUTE system pilot program which will allow the OIAA to bring additional airline partners to ONT with its existing terminal check-in counter in Terminal 2.

Item No. 09
FISCAL IMPACT AND SOURCE OF FUNDS: The 2017/2018 OIAA budgeted amount for Prodigiq is $350,000.00. To date, the OIAA has paid Prodigiq $229,895 of this budgeted amount. The addition of GIDS and BIDS and CUTE system installation, software licensing, technical support services and training, will add $450,000 in expenses with ProDIGIQ during FY 2017-2018. The estimated $330,000 in necessary FY 2017-2018 funds is available within the OIAA’s current budget. Increased expenditures with ProDIGIQ in future years will be included in future budgets.

This action will (1) increase the OIAA’s contractual authority during the currently fiscal year from $350,000 to $800,000 (2) increase the OIAA’s contractual authority from $350,000 to $450,000 for the four (4) succeeding years of the contract.

CEQA COMPLIANCE: Exclusion from the definition of “project”: The creation of government funding mechanisms or other government fiscal activities which do not involve any commitment to any specific project which may result in a potentially significant physical impact on the environment. (CEQA Guidelines §15378(b)(4).)

STAFFING IMPACT (# OF POSITIONS):

N/A

IMPACT ON OPERATIONS: A new BIDS and GIDS system along with the existing FIDS will significantly improve the passenger experience as well as the ability for the airlines to have a single solution to manage flights, baggage and gates. The Common Use pilot is expected to prove out the concept for more flexibility and efficiency in carrier counter and gate space.
