ITEM NO. 06
Local Emergency

Pursuant to Government Code sections 8550 et seq. and 8630 et seq., the Authority can determine to declare the existence of a local emergency under applicable circumstances threatening the lives, property or welfare of ONT passengers, employees and operators.

California and the nation are responding to the spread of a respiratory illness caused by a novel coronavirus and which has now been detected in more than 200 locations internationally, including in the United States. The virus has been named “SARS-CoV-2” and the disease it causes has been named “coronavirus disease 2019” (COVID-19).

On March 14, 2020, the City of Ontario proclaimed a local emergency, and most recently on October 6, 2020, continued the local state of emergency declaration in response to regional COVID-19 diagnoses and to mobilize the City to best serve the Ontario community. Given that ONT is a destination for passengers from across the nation and from some international locations, the potential effects of the spread of COVID-19 is a local emergency at ONT.

The U.S. Centers for Disease Control (CDC), the California Department of Public Health (CDPH), and the San Bernardino County Department of Public Health (SBCDPH) have all issued requirements, recommendations and guidelines for the public, businesses and public agencies regarding addressing the spread of COVID-19. Some of the requirements, recommendations and guidelines, however, do not apply to essential services and infrastructure such as ONT, or to operations related to air travel in general.

Available Actions by OIAA Responding to the Local Emergency

Declaration of a local emergency relating to COVID-19 enables the Authority, including its CEO under delegated power, to issue written orders and regulations necessary to provide for the protection of passengers, employees and operators at ONT, and related property, as affected by such emergency. The orders and/or regulations include those to (1) obtain vital supplies, equipment, and such other properties found lacking and needed for the protection of life and property at ONT and to bind the Authority for the fair value thereof, (2) require emergency services of any OIAA officer or employee, (3) requisition necessary personnel or material of any OIAA departments, and (4) modify or approve contracts as necessary to ensure and protect the life and property of the public, operators, and employees at ONT.
Exercise of local emergency powers by the OIAA CEO or his designees will be timely reported to the Authority, and the Authority must periodically review the need for continuing the local emergency until it terminates the local emergency.

Both the City and County have provisions in their Municipal Codes allowing for the exercise of emergency powers and authorities;

WHEREAS, The JPA also states that, in exercising its powers for the operation, management and administration of ONT, the Authority shall exercise such powers as are restricted and applicable to the City. Accordingly, the Authority’s actions and powers available under a declaration of a local emergency shall be consistent with, or shall not exceed, those powers allowed to be exercised by the City during a declared local emergency;

WHEREAS, on September 24, 2020 the OIAA approved Resolution No. 2020-017, declaring the continued existence of a local emergency.

SECTION: ADMINISTRATIVE DISCUSSION/ACTION/REPORT

SUBJECT: REVIEW AND APPROVE UPDATE TO THE AIRPORT SYSTEM RATES AND CHARGES FOR FISCAL YEAR 2020-21

RELEVANT STRATEGIC OBJECTIVE: Develop Airport Related Business; Develop and Grow Non-Airline Revenue Sources; Maintain Financial Accountability and Stability to Support Airport Operations

RECOMMENDED ACTION(S): That the Ontario International Airport Authority Board of Commissioners (OIAA Board) approve the newly established General Ground Rental Rates at Ontario International Airport (ONT) based on 2020 fair market value appraisals for ground rates.

FISCAL IMPACT SUMMARY: Upon OIAA Board approval, the newly established ground rates will provide an eighty-six cent ($0.86) increase for unpaved land (5% average annual growth rate since 2005); ninety-eight cent ($0.98) increase for paved for automobile land (4.1% AAGR since 2005); and a one dollar and fifteen cent ($1.15) increase for paved for aircraft land (3.8% AAGR since 2005) at ONT.

BACKGROUND: The last set of appraisals initiated on ONT property was completed in 2005. Since the OIAA has reestablished a Commercial Team, several revenue analyses have been completed including a review and update of existing rates and charges based on fair market value appraisals.

The Commercial Team engaged with three (3) appraisers with specific experience and knowledge of aeronautical properties including: Airport Business Solutions, Smith & Associates and Cushman & Wakefield. The scope of work required the fair market value of ONT’s three (3) land categories including: unpaved land (landside/airside), paved for automobiles (landside/airside) and paved for

aircraft (airside). Finally, as per FAA requirement an appraiser reviewer, Valbridge Property Advisors is conducting a review and opinion to appraisal methodologies.

The newly established ground rates will ensure that the OIAA is leasing land at ONT based on current fair market value and will remain competitive with other Southern California airports. The effective date of the new general ground rental rates will be upon approval by the OIAA Board.

Additional Clarifications:

(a) “FIS” – Federal Inspection Services facility, also known as the International Arrivals Terminal where Customs and Border Protection inspect arriving passengers from a foreign country.

(b) “Joint Use Fee” – The fee charged to an air carrier for Joint Use Space, based on the Joint Use Formula as defined in the Operating Use and Terminal Lease Agreement.

(c) “Joint Use Formula” – The formula used to prorate eighty percent (80%) of the specified charge for Joint Use Space according to the ratio of the number of each airline’s (both Signatory Airlines and Non-Signatory Airlines) deplaning passengers at the Airport during the most recent completed quarter for which such information is available to the total number of deplaning passengers of all airline users of the service or space during that same quarter. The remaining twenty percent (20%) is to be prorated equally among all airline users (both Signatory Airlines and Non-Signatory Airlines) of the space.

(d) “MGLW” – Maximum Gross Landing Weight; the FAA Certificated Maximum Gross Landing Weight or actual gross landing weight of an Aircraft if no such specification exists. In computing fees prescribed herein, except for Aircraft weighing less than 25,000 pounds, 500 pounds or any larger part of 1,000 pounds shall be counted as if a whole 1,000 pounds, and any smaller part shall be disregarded.

(e) “Non-Preferential Gate” – A gate that is not preferentially leased by a Signatory Air Carrier.

(f) “Non-Signatory Air Carrier” – A cargo or passenger carrier that has not entered into the Operating Use and Terminal Lease Agreement with the OIAA.

(g) “Operation” – Shall be the equivalent of one aircraft turn (one arrival and one departure).

(h) “Preferential Gate” – A gate that is preferentially leased by a Signatory Air Carrier.

(i) “PSFPY” – Per Square Foot Per Year.

(j) “Signatory Air Carrier” – A cargo or passenger carrier that has entered into the Terminal Operating Use and Terminal Lease Agreement with the OIAA.

(l) **“Aircraft Parking Charges”** – Includes all airport-controlled/non-preferential aircraft parking positions at Airport. If a Jet Bridge is used on gates 411-414, then the additional appropriate charges shall incur. If a Preferential Gate is utilized, then additional fees may be levied.

(m) **“Ground and Facility Rental Rates”** – These are subject to CPI or Fair Market Value adjustments based on the language written in each Facility Use Agreement or Lease.
